

Daimler Truck Strategy Day

May 20, 2021

Important information

The presentation has been prepared by Daimler Truck AG (the "Company" and together with its subsidiaries and those entities to become its subsidiaries, the "Group") for information and background purposes only. This document is not, and should not be construed as, a prospectus or offering document, and has not been reviewed or approved by any regulatory or supervisory authority. The information does not constitute or form part of, and should not be construed as, an offer for sale or subscription of, or a solicitation or invitation of any offer to subscribe for or purchase any loans or securities of or make an investment in the Company or any other member of the Group or Daimler AG or any of its subsidiaries (together, "Daimler") or any other entity in any jurisdiction, and nothing contained therein shall form the basis of, or be relied on in connection with, any contract or commitment whatsoever, in particular, it must not be used in making any investment decision. Any decision to invest in securities should be made solely on the basis of the information to be contained in a prospectus and on an independent analysis of the information contained therein.

The historical financial information included in the Information reflects the current Daimler Trucks & Buses segment as included in the audited consolidated financial statements of Daimler AG (the "Segment Financial Information"). As a result of reorganizations within the Daimler AG group ahead of the contemplated spin-off and listing of the Group, in particular the planned transfer of certain financial services business relating to trucks and buses, historical combined financial information reflecting the full scope of the Group as it will exist at the time of the contemplated spin-off and listing is being prepared ("Historical Combined Financial Information"), which will not be identical to the Segment Financial Information. Such Historical Combined Financial Information will be published separately at a later stage.

No representation, warranty or undertaking, express or implied, is made by the Company, Daimler or any of their respective affiliates or directors, officers, employees, agents or advisers ("Representatives") or any other person as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the Information or the opinions contained therein or any other statement made or purported to be made in connection with the Company, the Group or Daimler, for any purpose whatsoever, including but not limited to any investment considerations. No responsibility, obligation or liability whatsoever, whether arising in tort, contract or otherwise, is or will be accepted by the Company, Daimler or any of their respective Representatives or any other person for any loss, cost or damage howsoever arising from any use of the Information, or for information or opinions or for any errors, omissions or misstatements contained therein or otherwise arising in connection therewith.

This presentation contains forward-looking statements that reflect the Company's current views about future events. The words "will," "target," "anticipate," "assume," "believe," "estimate," "expect," "intend," "may," "can," "could," "plan," "project," "should," "plan" and similar expressions are used to identify forward-looking statements. These statements are subject to many risks and uncertainties, including an adverse development of global economic conditions, in particular a decline of demand in the Company's most important markets; a deterioration of the Company's refinancing possibilities on the credit and financial markets; events of force majeure including natural disasters, pandemics, acts of terrorism, political unrest, armed conflicts, industrial accidents and their effects on the Company's sales, purchasing, production or financial services activities; changes in currency exchange rates, customs and foreign trade regulations; a shift in consumer preferences towards lower-margin vehicles; a possible lack of acceptance of the Company's products, including its battery-electric vehicles ("BEV") and fuel cell electric vehicles ("FCEV"), or services which limits the Company's ability to achieve targeted prices and adequately utilize the Company's production capacities; price increases for fuel or raw materials; disruption of production due to shortages of materials, labor strikes or supplier insolvencies; a decline in resale prices of used vehicles; the effective implementation of cost-reduction and efficiency-optimization measures; the business outlook for companies in which the Company holds a significant equity interest; the successful implementation of strategic co-operations and joint ventures; changes in laws, regulations and government policies, particularly those relating to vehicle emissions, fuel economy, BEV, FCEV and safety; the resolution of government investigations or of investigations requested by governments and the conclusion of pending or threatened future legal proceedings; and other risks and uncertainties, some of which are described under the heading "Risk and Opportunity Report" in the Annual Report for the financial year 2020 and the Interim Report Q1 2021 of Daimler AG. If any of these risks and uncertainties materializes or if the assumptions underlying any of the Company's forward-looking statements prove to be incorrect, the actual results may be materially different from those the Company expresses or implies by such statements. The Company does not intend or assume any obligation to update these forward-looking statements since they are based solely on the circumstances at the date of publication.

DELIVERING ON OUR AMBITIONS

Jochen Goetz

DAIMLER TRUCK: THE STARTING POINT

Financial performance needs improvement

THE CHALLENGE: COST COMPETITIVENESS

- ▶ Global EBIT margin not competitive
- ▶ Profit leader in North America but problems in Europe, Brazil & Asia
- ▶ Greater volatility due to high fixed costs
- ▶ Essential to raise returns and generate shareholder value

OUR AMBITION: TARGET THE BENCHMARK

PROGRESS IN 2020 – BUT NOT ENOUGH

Learn from 2020; make savings permanent; push further

FIXED COST REDUCTION

STRUCTURAL ACTIONS

- ▶ Personnel cost reduction target for Mercedes-Benz of €300M by 2022
- ▶ Process streamlining and complexity reduction
- ▶ Sustainable implementation of COVID-19 learnings
- ▶ Reduced external spending

SMARTER CAPITAL ALLOCATION ESSENTIAL

Greater focus on our most profitable segments and regions

LOWER CAPEX AND R&D

IMPROVE FOOTPRINT

- ▶ Focus on heavy duty in main regions
- ▶ Manage portfolio actively to focus and reduce complexity
- ▶ Reduce spending on ICE powertrain
- ▶ Standardize global EV architectures
- ▶ Implement absolute € budgets year by year for Capex and R&D (not % of sales targets)

Note: DT R&D capitalization policy results in very low net P&L uplift

GROW SERVICES AND RAISE PROFITABILITY

Leverage technology to grow recurring revenues and reduce cyclicality

BEHIND THE RESULTS, HARD WORK

Targeted, rigorously executed measures for sustained high performance

INDUSTRY-LEADING MARGINS... DOUBLE-DIGIT PROFITABILITY

...DRIVEN BY INTENSE FOCUS ON PERFORMANCE

- ▶ Continued focus on **TECHNOLOGY LEADERSHIP**
- ▶ Non-negotiable **CUSTOMER FOCUS**
- ▶ Highest focus on rigorous **COST MANAGEMENT**
- ▶ **CASH-FOCUSED** business model
- ▶ Best-in-class **OPERATIONS AND FLEXIBLE** production
- ▶ Insatiable **DRIVE FOR IMPROVEMENT**

HOW WE WILL CONTINUE TO WIN

New opportunities, new profit pools and relentless execution

VOCATIONAL STRATEGY BOOSTING FUTURE GROWTH

- ▶ New dedicated platform 49X
- ▶ Overall market: 130k
- ▶ Our current share: 28%
- ▶ Dedicated organization to fight for #1

AFTERMARKET FULL RANGE OF SERVICES

- ▶ 24hrs customer turnaround
- ▶ Strong Aftermarket network
- ▶ Increased focus on new service offerings and digital portfolio

TECHNOLOGY PUSH EXPAND LEADERSHIP POSITION

- ▶ Accelerate ZEV strategy
- ▶ Drive industry towards zero emission trucking
- ▶ Industry-leading safety technology

THE CHALLENGES: LACK OF CUSTOMER FOCUS AND COST COMPETITIVENESS

NEW CUSTOMER-FOCUSED STRATEGY

We need to raise our game to win back customer trust

PRODUCT

- ▶ Involve customers in R&D process
- ▶ Focus on TCO improvements

SALES

- ▶ Integrated offering of our portfolio
- ▶ Improve support for frontline
- ▶ Extend training and digitalization

SERVICES

- ▶ Strengthen service network
- ▶ Optimize spare parts availability

ACCELERATED PERFORMANCE INITIATIVES

Systematic plan to drive a European profit turnaround

PERFORMANCE MANAGEMENT

- ▶ Multiple previous initiatives now in **one program**
- ▶ Program management: >6,000 cost items targeted
- ▶ Direct steering by Head of Mercedes-Benz Trucks

PERFORMANCE TARGETS

- ▶ Fixed cost reduction targeting regional benchmark
- ▶ €300M personnel cost program on track
- ▶ New manufacturing performance plan initiated

TURNAROUND OBJECTIVE: DRAMATIC EBIT IMPROVEMENT

BRAZIL: INTENSE RECOVERY PROGRAM

Comprehensive restructuring and product cost actions underway

MARKET DEMAND [k]

MARKET SHARE [%]

THE CHALLENGE

- ▶ Market volume decline from peak
- ▶ Severe currency depreciation
- ▶ High dependency on imported parts

OUR PLAN

- ▶ Reduce FX exposure: localize and exports
- ▶ Stringent fixed cost reduction
- ▶ White collar headcount down 10%

PROGRESS

- ▶ New localized Actros with higher margins
- ▶ Strong traction as force in extra-heavy
- ▶ Cost reduction accelerating

MERCEDES-BENZ TRUCKS: REBUILDING PROFITABILITY

- ▶ **NEW PERSPECTIVES**
- ▶ **REVISED STRATEGY**
- ▶ **TARGET BENCHMARK IN EUROPE**
- ▶ **FIX BRAZIL**
- ▶ **INTENSIFIED COST MANAGEMENT**
- ▶ **INTENSE CUSTOMER FOCUS**

CONVICTIONS DRIVING OUR PROPULSION SYSTEM STRATEGY

WE WILL RAMP DOWN CURRENT ICE POWERTRAIN

Manage the ICE ramp-down while staying technology competitive

WE ARE COMMITTED TO BOTH BEV & HYDROGEN SOLUTIONS

BEV and FCEV are complementary and both will be needed

WE WILL MOVE RAPIDLY TO WIN THE PROPULSION TECHNOLOGY RACE

We have the right levers to accelerate ZEV

TRANSITIONING:
significantly reduce ICE spending;
vast majority of R&D spending to be
ZEV-focused by 2025

THE TRANSITION TO ZEV

High potential variability in timing – but we are ready for any outcome

DT KEY 2030 ASSUMPTIONS

- ▶ Governmental support incl. carbon pricing & infrastructure
- ▶ Zero emission PT cost driven down further
- ▶ H2 cost €4/kg, with infrastructure buildout
- ▶ Electricity cost: €0.15/kwh

TCO OUTCOMES

- ▶ Parity for BEV possible after 2025
- ▶ Parity for FCEV possible after 2027
- ▶ Significant variations likely by region

ZEV TECHNOLOGY: BOTH BEV AND HYDROGEN WILL BE NEEDED

Three key factors drive our dual strategy

**COST PER RANGE:
“THESE LINES MUST CROSS”**

**FCEV AND BEV
BOTH WIN
DEPENDENT ON RANGE**

**ENERGY DENSITY/CHARGING:
“THESE LINES NEVER CROSS”**

**FCEV BEATS BEV
IN CHARGING, RANGE
AND PAYLOAD AT HIGH RANGE**

**GLOBAL ENERGY ECOSYSTEM:
“WILL BE ESTABLISHED ANYWAY”**

**BOTH E-GRID AND H₂ ARE REQUIRED
IN A CO₂-NEUTRAL SOCIETY –
INDEPENDENT OF TRUCKING**

WE WILL MOVE RAPIDLY TO WIN THE PROPULSION RACE

Committed to offering the strongest ZEV portfolio across all key segments and regions

REDUNDANT CASCADIA AND AUTONOMOUS DRIVING TECHNOLOGY

Clear target: industry leading autonomous technology with our dual-track strategy

WHAT WE DO

- ▶ Global partnership between industry leaders in trucking and in autonomous driving technology

BENEFITS FOR CLIENTS

- ▶ Waymo's industry-leading autonomous driving technology available on a unique version of Freightliner Cascadia

BENEFITS FOR US

- ▶ Strengthening of market position generating volume

- ▶ Pioneer in heavy-duty autonomous technology focusing on trucks as independent subsidiary of Daimler Truck AG

- ▶ Torc's virtual driver is optimized for the use case of hub to hub trucking and closely developed and tested with customers

- ▶ Laying the foundation for a new profit pool offering services beyond traditional scope of vehicle sales

TWO PILLAR STRATEGY: ACCELERATE TECHNOLOGY AND PROVIDE OPTIONS TO CUSTOMERS

OUR MISSION AS AN INDEPENDENT COMPANY IS CLEAR

RESET PROFITABILITY

- ▶ Intense focus on fixing Europe
- ▶ Target profit benchmarks in each region
- ▶ No excuses: every region must deliver
- ▶ Grow services rapidly
- ▶ Commitment to strong shareholder returns

LEAD THE WAY TO ZERO EMISSIONS

- ▶ Seek cost and performance leadership
- ▶ Dual-track BEV and FCEV strategy
- ▶ Refocusing of R&D activities
- ▶ Kick-start infrastructure
- ▶ Sundown ICE with partners

IN PURSUIT OF PROFIT AND TECHNOLOGY LEADERSHIP
